NICE TO MEET YOU!

As we say its a Home for **“EVERY”** Nut
With a plant size of 20,000 sq meters and a capacity to produce 18 Tons Per Day, Flavourbite Foods, a peanut butter company based out of Morbi, Gujarat manufactures quality groundnut-in-shells using the latest machinery. We have a desire to provide peanut butter made with pure ingredients straight from farmers and offer a rich recipe for a fresh, tasty lifestyle. We are staffed by veteran food industry professionals who have deep knowledge in procurement, manufacturing, distribution, and marketing of food products. What started as a backyard hobby of making homemade natural peanut butter has now become Flavourbite.

IDEAL FOR

MISSION & VISION

Our mission is to provide safe and best quality peanuts worldwide. Flavourbite is the brand of peanut butter that we produce in quantity, with help of an expert procurement team and sustainable farming techniques. We will uncover new discoveries in the future that we don't know today. Our goal is to help people find high-quality, nutritious peanut butter that is affordable. We hope to grow in the industry by continuing to expand our product range and stay on top of market demands.

We can overcome our limitations by discovering new countries, making new friends, and learning new languages. With modern technology applied to research, we can invent new processes and products with no time limit. All while continuing to guarantee all of our customers the best with what does not yet exist. We always guarantee our customers with the best raw materials and maximum flexibility of offer. We want to make sure we always give the best value for money and keep things simple. That's the future and we know it.

IDEAL FOR

SUSTAINABILITY

Flavourbite foods have taken another step toward sustainability. Our goal is to create a food processing system that supports global demand for sustainable agriculture and educate, ensure crop rotations to regional farmers. At Flavourbite we try to find new ways of processing food without compromising on taste or the sustainability of nature. Our products are always made with the utmost care. We have a relentless passion to grow and provide our customers with products that are best for them. We constantly try to explore and re-invent our surroundings, prioritize customer satisfaction and have sustainable ways of growing our products.

IDEAL FOR

TECHNOLOGY

China, and US-Based reputed companies, state of the art food processing plant in heart of Gujarat...

Our state of the art processing unit is unlike any other, our factory is fitted with modern technology and machines that have been imported from United States and China based reputed companies. Along with the processing unit, we also have a well equipped storage facility which can store our products for months together, allowing us to deliver them at optimal quality level to our clients all across India & abroad

We are an organization that has been noticed for our quality products, professionalism amongst employees and commitment towards continuous improvement of all processes involved in the production chain. Flavourbite Foods, a company which stands head and shoulders above all others means business!

IDEAL FOR

CLEANING SECTION CUM

Directly fed with fresh peanuts from farms, our automated cleaning section ensures the removal of stone and other heavy impurities at the first phase of the process

ROASTING LINE

Our Multi-function continuous roaster with a capacity of 2 MT per hour is capable of roasting peanuts consistently hence giving a very unique yet consistent taste.

BLANCHING SECTION

Our Peanut Blancher is configured to blanch both whole nuts as well as split nuts which give us the flexibility to produce a wider range of products

IDEAL FOR

SORTING SECTION

Our automated sorting machine with 4+1+1 technology is capable of sorting out the good nuts from the bad ones. It is capable of differentiating nuts containing Aflatoxin (a substance that can cause cancer) and filters out during the process. Following the automated sorting, our manual sorters remove any last remaining bad nut in the process flow.

MANUAL SORTING SECTION

GRAVITY METAL DETECTOR

Our Sesotec Germany metal detector is put in place right before our grinding mills to separate any metal impurities with scanning sensitivity of

- ø Fe-Ball (1.3505) >0.8 mm
- ø VA-Ball (1.4301) > 1.50 mm
- ø NonFe-Ball (brass) > 1.2 mm

IDEAL FOR

PRIMARY GRINDING MILL

Our combination of primary and secondary grinding mills from Urschel, USA are able to produce a very precise texture of peanut butter as required by our clients.

SECONDARY GRINDING MILL

AUTOMATIC CHECKWEIGHER

CONVEYOR METAL DETECTOR FOR FINAL PRODUCT

This metal detector is an extra stage of safety that ensures that no packed jar contains any impurities. Any Jar detected with impurities is discarded and manual inspection is done further on the same batch.

IDEAL FOR

OUR PRODUCTS

ORGANIC

For a delicious, satisfying, and healthy snack that is a true taste of summer, try Organic Peanut Butter. Made with only one ingredient: roasted peanuts, this peanut butter is mixed with nutritional yeast flakes and is gluten-free, vegan and kosher!

NATURAL

Flavourbite Natural Peanut Butter is a delicious and natural-tasting peanut butter. Made with premium ingredients such as 100% pure groundnuts or peanuts and palm oil, this peanut butter is free of hydrogenated soybean oils, added sugars, or artificial flavors.

IDEAL FOR

CLASSIC CRUNCHY

Our peanuts are slow-roasted, whole, and raw with the thought of providing the perfect crunch. Try our peanut butter to top your favourite toast and cereal or as a replacement for traditional peanut butter to create new and exciting recipes for your family to enjoy.

HONEY

This delicious peanut butter has a great taste and is all-natural. It is also high in protein and fiber, with no cholesterol or trans fat, so it's good for your health and your waistline!

IDEAL FOR

CHOCOLATE

The secret is in the chocolate. 100% dark chocolate and premium peanuts give you a chocolate taste of nirvana. A velvety, decadent combination that is so good, you'll never stop. A handcrafted gourmet chocolate snack at its finest.

IDEAL FOR

SALTED PEANUTS

Salted Peanut is an unforgettable, memorable snack that is more than just peanuts. Preparing them from a superior quality of peanuts as well as with a special technique, creates a distinctive sweet, salty taste. This unique taste is just one of the differentiating factors when compared to regular peanuts. It can be eaten as it is, with a cup of tea or coffee.

ROASTED PEANUTS

Oh so yum, roasted peanuts with extra flavour! We ensure that our peanuts are roasted just to the level of perfection. To ensure freshness and quality, our processes are designed with high standards. Only the best of everything is chosen for our distinctive taste and flavour. For offering this world class product with a healthy twist, no oils or preservatives are used.

IDEAL FOR

PRIVATE LABELING

FLAVOURBITE

Get the best Peanut Butter private label by Flavourbite Foods. We use superior ingredients and our R&D will ensure you get the best experience with your product along with our premium packaging services. Our customization, wrapping, and packing services makes sure your product is delivered in perfect conditions, and of course, your client will love it
