Business Area

1. Independent Brands

We have our own brand based on professional manpower from product development to marketing and distribution. Secure brand design, distribution channels and marketing of general foods. Not only domestic sales but also overseas exports are being extended to the base of the distribution network.

2. OEM&ODM

We have OEM based on our long-standing know-how and expertise in pouch (spout, standing, roll, stick), powder (sticker, bottle), pill (big, small), tablet & capsule lines. And, we build an ODM method providing full services from product signage to development / quality control / production / shipment.

3. Healthcare Raw Materials

Based on the originality of research and technology of Huons Central R & D, our specialty of health care raw materials such as Panax Ginseng, Honeybush, Sesame Leaf, Lactobacillus etc. are recognized world widely. We continuously develop excellent materials overseas with foremost priority placed on the health of humankind and the trust of our customers.

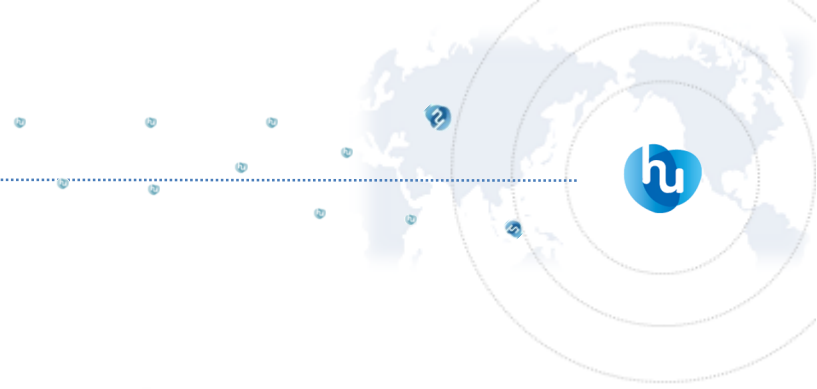

4. Feed Additive

Huons Foodience also focus on animal nutrition as we consider the co-existence of nature and mankind. With various probiotics manufacturing technology, antibacterial & antiviral effects, antibiotic replacement effects, promoting digestion, diarrhea prevention etc. are applicable to all livestock breeds .

Independent Brand Products

Brand Identity (B.I)

“Setting it from the body”

- **Heart Shape:**

A passionate mind for communication with customers based on the vision of a company that contributes to human health

- **Letter “S”:**

Representing a strong will to set up a new balance of inner health

- **Emerald Color:**

Meaning of Nature-friendly and green for growth

Raw Materials & R&D

Raw Materials & R&D

1. Healthcare Raw Materials

Individually Recognized type

★ Honey Bush extract fermented powder (HU-018)

Helpful for maintaining healthy skin from skin damage caused by ultraviolet rays (No. No. 2017-03)

★ Sesame Leaf Extract (PF501)

Helpful for reducing body fat (No. 2019-3)

★ YT1(HU-038)

Helpful for menopausal women's health (No. 2019-22)

★ Combretum Indicum Extract Powder

Helpful for maintaining prostate health (No. 2021-3)

- Fermented Red Ginseng Powder
- Lactic acid powder LP VH13
- Lactobacillus ram Northus HBT18002
- Lactobacillus paracaze HBT18003
- Lactococcus lactis HBT18004
- Lactobacillus permanent HBT18005
- Lactobacillus plantarum HBT18006

2. General food ingredients

- Black Fermented Powder
- Honey Bush Extract Powder
- Hwangchil Extract Concentrate 10
- Fermented Black Maca Powder
- DNJ Soybean Fermented Extract
- Mulberry Leaf Tangerine Fruit Extract Powder
- Mate Extract Powder
- Hwangchil Extract Concentrate 30
- Heat-treated Lactobacillus Powder
- Soybean Fermented Extract Powder
- BT Plant Mixture Extract Powder
- Hwangchil Extract Concentrate Powder
- Lactic acid bacteria fermented condensate concentrate 50
- Heat-treated lactic acid bacteria powder (LPC dead cells)
- Lactobacillus plant tarum

3. Panax Ginseng

- Red Ginseng Concentrate
- Red Ginseng Concentrate Powder
- Red Ginseng Powder
- Panax Ginseng Concentrate
- Panax Ginseng Powder

4. Food additive

- Natural Yogurt Flavor Powder

5. Feed additive

- MORI-MAX
- MORI-MAX AQ
- CELL DOWN
- BSD-2000

Raw Materials & R&D – (1/3)

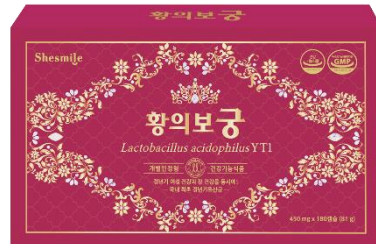

Individually Recognized Healthcare Raw Materials

1. YT1(HU-038) Helpful for menopausal women's health (No. 2019-22)

3년간 여성 건강에 도움을 줄 수 있음.
 유산균 증식 및 유해균 억제에 도움을 줄 수 있음.
 배변활동 원활에 도움을 줄 수 있음.

특허 No. 2019-507317
 갱년기 예방 또는 치료용 조성물 원료

신기술 인증서
 락토바실러스 아시도필루스 YT1을 이용한
 여성갱년기 기능식품 원료 개발 기술

Shesmile Probiotics

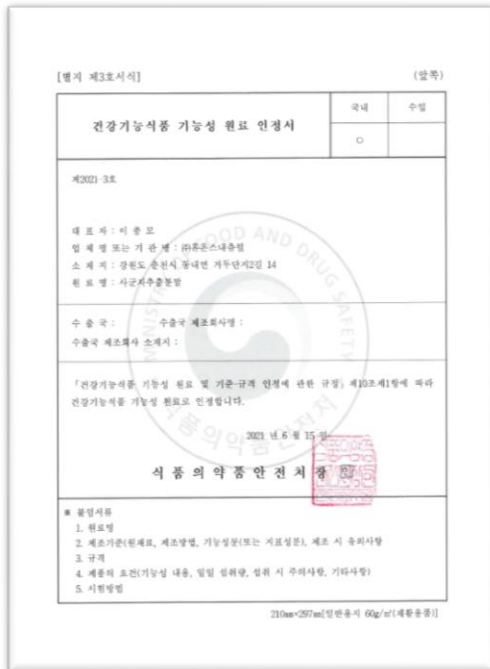

Menolacto Probiotics

Raw Materials & R&D – (2/3)

Individually Recognized Healthcare Raw Materials

2. Combretum Indicum Extract Powder

Helpful for maintaining prostate health (No. 2021-3)

MFDS Ingredient Certificate

Domestic Patent 10-1552513

Raw Materials & R&D – (3/3)

Panax Ginseng & Red Ginseng

Functional Information

Helpful for advancing the following symptoms:

- Relieving fatigue
- Immune system
- Blood circulation
- Memory level
- Bone health
- Menopause
- Dermatitis
- Cardiac disease
- Antioxidant

Panax Ginseng Powder

Red Ginseng (Concentrate) Powder

Panax (Red) Ginseng Concentrate

Applicable Forms

Coffee

Energy Drink

Nourishing Tonic

Sports Cream

Protein/BCAA

Shampoo

Cake

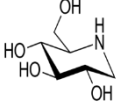

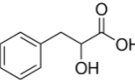

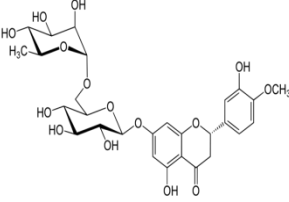

Beauty Cosmetics
Tablet
Capsule
Pharmaceuticals
ETC.

Raw Materials & R&D - Fermentation Culture Technology

Huons Foodience Co., Ltd. has functional material manufacturing technology using optimized culture technology.

Fermented culture technique

CASE	CONTENTS		RESULT
DNJ	After fermentation of <i>Bacillus subtilis</i> MORI strain 1-Deoxynojimycin production		Antiviral effect increasing DNJ content 4 g / L
PLA	lactic acid bacteria Phenyllactic acid generation		Antibiotic alternatives
Fermented Honey Bush	lactic acid bacteria Honey Bush Extract Fermentation		Hesperidin Content Increase 1.7 mg / g
Fermented Red Ginseng	Ginseng Fermentation Using Yeast		Increase in active substances
Fermented Maca	Maca fermentation using yeast		Polyphenols and Amino Acid Increases

Feed Additive

Feed Additive

Huons Foodience Co., Ltd provide that applied to all livestock breeds based on raw materials such as live & dead cells, and metabolites.

Feed Additive Functional Materials

NAME	CONTENTS	EFFICACY	APPLIED
MORI-MAX	Antibacterial Antiviral Feed Additive	<ol style="list-style-type: none"> 1) Antiviral Efficacy 2) Prevention of bacterial transmission 3) Antibiotic alternatives due to natural extracts 4) Reduce weight gain, diarrhea and mortality 	PIG, BROILER
BSD-2000			ALL LIVESTOCK
MORI-MAX-AQ	Antibacterial Antiviral Feed Additive	<ol style="list-style-type: none"> 1) Antiviral Efficacy 2) Prevent bacterial transmission 3) Antibiotic alternatives due to natural extracts 4) Increase survival rate reinforce immunity 5) Use jointly with other drugs 6) Use as pellet feed b/c high thermal stability 	FISH
CELL DOWN	Flow rate increase, Somatic cell decrease Feed Additive	<ol style="list-style-type: none"> 1) Antibacterial and immune stabilization 2) Prevent viral/bacterial diarrhea 3) Promote rumen microbiome growth 4) Increase digestion speed & consuming dry matters 	COW, BEEF

THANK YOU
