COCONUT WATER

Karta coconut water is a refreshing ready to drink coconut water made with fresh coconut juice with splash of natural flavour.

We have a variety of sizes to cater to different customer needs such as 250ml, 330ml and 1000ml. For seal integrity, product packed into Tetra Prisma 330ml and 1000ml's seal will broken and puncture the pre-laminated hole as an indication that the cap has already been turn and open. For product packed into Tetra Prisma 250ml is protected by aluminium pull tab which is single use that is easily opened by peel back foil tab.

DESICCATED COCONUT

01 What is Desiccated coconut

A desiccated coconut is a coconut that is dried out with all of its moisture removed. Desiccated coconut is de-shelled, pared, washed, milled, blanched, dried, sifted and hygienically packed made of fresh and mature fruit of coconut. In Karta International, we spoil our customers with a variety of cut-sizes which are extra fine, fine, miller (medium), and millrun.

02 Application

Desiccated coconut is normally used as coating, toppings, fillings, dressing on baked products. It can also be used in savoury food such as sauce, soup and ice cream. Desiccated coconuts help in adding texture and creaminess to food.

TOASTED COCONUT PASTE

WHAT IS TOASTED COCONUT PASTE ?

Toasted Coconut Paste (Kerisik) is commonly referred to as “coconut butter”.

It is made from toasting grated coconut to enhance the nutty flavour then pounded into a paste. Traditionally, toasted coconut paste acts as spice to make dishes tastier and more aromatic. Coconut paste is primarily used in confectionery and sauces to thicken and flavour dish such as curry or rendang. It can also be used as great topping for toast, pancakes or ice cream.

TOASTED COCONUT PASTE

- ✓ Halal certified
- ✓ Only raw meat with no black skin
- ✓ No preservatives, No coloring, No flavouring
- ✓ Aluminium packaging (double bag) for long lasting and no leakage

COCONUT OIL

01 What is Coconut oil

Coconut cooking oil is an oil that under goes refining, bleaching and deodorisation to remove impurities. Akasa coconut cooking oil has high smoking point up to 232 degree Celcius (449.6 Farenheit) hence it is great for sauteing, stir-frying, baking and body care. Akasa coconut oil is neutral scent and flavoured so the coconut oil wont interfere with the taste of other foods. It is a healthy oil compared to other oils because it is filled with lauric acid and is packed in opaque bottles to maintain the freshness and minimise oils from being rancid.
