

NOTES

 **KOMAGRA**

KOMAGRA is an autonomous, 100% Polish and rapidly growing company currently ranked as one of the largest domestic producers of cooking oils.

The new vegetable oil plant opened in 2022 is located in Kosów Lacki and is the most modern facility of its kind in Poland.

Continuous supervision of all aspects of the process line and special conditions of the production process make it possible to obtain top quality oil appreciated by contractors and consumers.

perfect for soups, salads,
sauces and dips

With the use of advanced pressing and refining technologies, our oil stands out for its superior quality. Then nationwide unique patent-protected production method gives a delicate flavour to our oils, which allows you to enhance the taste qualities of your favourite dishes and satisfy even the most demanding gourmets.

In addition, as a result of specially selected parameters, no undesirable compounds are formed during production, in particular 2-MCPD, 3-MCPD and glycidyl esters, thus making our oils among the safest in Poland. The quality of our products is evidenced by the implemented and maintained IFS and the Q quality mark.

**POLSKI rapeseed oil
is available in attractive
bottle capacities:**

• diverse application possibilities make the oil highly versatile, offering a wide range of uses in the kitchen

• prevents food from burning and therefore does not release harmful substances or alter the taste of food

• rich in healthy omega-3 fatty acids and vitamins

• modern consumers choose Polish products from Polish companies – we are increasingly willing to support the Polish economy through conscious purchasing decisions

• premium quality and safety confirmed by the recognisable Q certificate
